CONFERENCE AND EXPO

APRIL 8-11 2018 | BONITA SPRINGS, FLORIDA

An Invitation to the 2018 FAM Conference Inside

04
COLD Corner

Editor-in-chief Marina Mayer discusses the various features involved with *Refrigerated & Frozen Foods*' redesign.

32
COLD Retail Products

Check out this lineup of newly developed refrigerated and frozen meals and entrées.

36
COLD Supply Chain & Logistics

Americold details how the influx of e-commerce impacts today's—and tomorrow's—cold food and beverage supply chains.

37
COLD Packaging Equipment

This lineup of fillers, depositors and sorters provide high-speed accurate portioning for a variety of cold food applications.

38
NEW Product Technology

A dry vapor steam belt cleaner, a modular trailer tracking solution and packaging equipment for the produce industry make up this issue's new products and solutions.

39
COLD Technology Showcase

Here's a peek at some of the recent developments in belts and conveyors.

42
COLD Energy Management

Bluefield Research outlines how today's cold food and beverage processors can achieve the ultimate in wastewater treatment.

Voting for Best New Retail Products 2018 is officially open. Go to <http://bit.ly/2FnW5HB> to check out the nominees.

COVER STORY

TOP 150 FROZEN FOODS PROCESSORS REPORT

Refrigerated & Frozen Foods ranks the Top 25 frozen food processors in each of the six major product categories. Here's a breakdown of the top industry leaders.

NEW PRODUCT TECHNOLOGY

MODULAR TRAILER TRACKING SOLUTION

Spireon released what is dubbed as the industry's first modular trailer tracking solution. FL Flex enables a mixed

fleet to deploy a single, small footprint device across its full range of trailers, and then customize the unit to meet the specific needs of each asset. By configuring FL Flex with options such as door, cargo, temperature and other trailer sensors, as well as solar panels to maximize up-time, fleets can streamline and accelerate the deployment of mission-critical asset management capabilities across their business. Tamper detection delivers real-time alerts, and the extended-life battery can be recharged with solar panels installed on the roof or nose of the trailer.

VAPOR STEAM BELT CLEANER

Goodway Technologies unveiled the Portable Jet System 4 dry vapor steam belt cleaner.

When used with Goodway GVC series steamers, the updated Jet System simplifies the process of maintaining open mesh belts and allows dry vapor steam cleaning to be performed without removing the belt. The Portable Jet System 4 is ideal for areas where wet cleaning needs to be avoided, and delivers powerful cleaning and sanitation performance with almost instantaneous drying times and no wastewater.
