

Powerful GPS

Trailer Management

FleetLocate FL12HP

Managing all components of a profitable operation can be difficult. FleetLocate FL12HP with high-powered battery gives you unprecedented visibility into the location and status of every trailer in your fleet in addition to in-depth reporting and analytics to help you stay profitable and use your assets to their fullest.

Locate Trailers Anytime, Anywhere

Receive live mapping, start and stop records and track GPS mileage. And enjoy reporting every 10 minutes while the trailer is moving to know exactly where your assets are at all times.

Improve Operations and Utilization

Use a sophisticated package of reporting tools to improve everything from detention to automated yard checks to understanding how to right-size your trailer fleet to impact your bottom line

Enjoy Extended Battery Life

Includes a high-powered battery to help you stay connected when a trailer is untethered for a long period of time and during cold weather

FleetLocate

FL12HP

GPS Mileage Tracking

Locate your trailers in real-time, see breadcrumb trails and view accurate mileage gathered by GPS

Detention Management

Reduce detention and increase driver satisfaction via alerts when a customer exceeds their grace period

Dwell-Time Reports

View the length of time a trailer is with a customer to avoid having assets that are tied up and not usable

Intelligent Locator

Quickly locate the trailer nearest a tractor or customer to improve responsiveness and routing

Pool Management

Allot the right number of trailers per customer and get alerts when you are over or under PAR
