

## Spireon Unveils Improvements Featured

Finance 24 May 2017

Spireon Inc. has debuted the latest version of its GoldStar GPS solution for the vehicle finance industry.

The new GoldStar GPS solution includes several key updates and features, including a redesigned user interface, a new mobile app and improved wireless reception. There is also a new reporting feature that provides early warning of driver behavior that may accelerate the devaluation of assets.

The improved GPS unit features a slim, re-engineered form and increased tamper protection and temperature-extreme durability.
