

# Fleet Management Vendor Comparison

# Compare the leading fleet management solutions based on key criteria.

## Judge for Yourself:

Today, users of software and services judge a company much more by what other users say about it than what the company says about itself.

That's why this comparison is based on a survey of the leading review sites that cover fleet management software, including:

**Software Advice** – A software review site with over 770k verified user reviews

**Capterra** – An online resource for business software buyers with 1 million+ verified software product reviews

**Trustpilot** – A customer review platform with more than 94 million reviews of over 400,000 websites

**Featured Customers** – A review site with 874,529+ validated customer references including reviews, case studies, success stories, customer stories, testimonials and customer videos

Compare your choices based on reviews using key criteria such as:

- Ease of Use
- Value for Money
- Customer Support
- Functionality
- Customer Reviews

See which system will perform best for your organization.

*Note: These review rankings are as of Sept. 1, 2020 and are subject to change.*

# Why Does FleetLocate Rank So Highly?

FleetLocate has more than 15 years in the industry, supports more than 3 million vehicles and has won multiple awards ([see here](#)). FleetLocate received the Market Leader Award by Featured Customers in the 2019 Customer Success Report for the Fleet Management category. With more than 1,000 ratings on Featured Customers including testimonials, case studies and customer videos, FleetLocate is one of the most review systems in the Fleet Management category.

In addition, FleetLocate provides:

**Uptime Guarantee of 99.9% or Better** gives you the assurance that your device will work consistently and you'll have the data you need.

**Nationwide Installer Network with 100+** installers, which means you can get devices installed correctly within a reasonable amount of time.

**BYOD**, allowing your drivers and fleet managers to use the technology they prefer, whether tablet, smartphone or rugged handheld, which reduces your cost and encourages use.

**Plug-N-Play Solutions** reduce time required for installation, saving you time and money.

**GM OnStar and Ford Device-Free Telematics** offer solutions without extra hardware, and indicates industry-leading partnerships.

**Trailers/Assets** means you can have fleet and trailer management all in one solution.

**ELD and FSMA compliant**, allowing you to meet regulatory requirements with confidence.

**Affordable and easy to use**, which means our solution is within an affordable price range and is considered intuitive by users.

**Reasonable contract length** of less than three years.

**Mobile Manager and Driver Apps**, allowing both fleet managers and drivers to access necessary info on their phones or tablets.

**Engine Diagnostics, Fuel Card and Tire Pressure** capabilities, allowing you to easily manage preventative maintenance, fuel expenses and tire pressure for your entire fleet.

As you can see, FleetLocate is a leader in the industry in not just rankings and customer reviews, but in features, reliability and more. Why not [see a demo today?](#)
