

Text Only Product Description

LoJack Connected Car and Stolen Vehicle Recovery Technology

Accessible from the palm of your hand, LoJack is Connected Car and Stolen Vehicle Recovery technology available with the purchase of your new car. LoJack connects drivers to their cars through their smartphones with features such as location, speed alerts, geo-boundaries, trip history, battery alerts, and more. As the #1 Stolen Vehicle Recovery product, LoJack also protects your car from theft and reduces the average recovery time from **28 days to 26 minutes**. With timely service reminders and specials, and the ability to easily schedule appointments in-app, keeping your vehicle in good health has never been easier. Protect your car, understand your car, and take care of your car all with LoJack. Ask us how.
