	FleetLocate	Option 2	Option 3
1 Does the solution work for a variety of vehicle types, such as light-duty, van, box truck, bucket truck, and tractor truck	Yes		
2 Does the solution offer an easy "plug and play" installation to get you up and running in minutes?	Yes		
3 Is the ELD solution affordable but still offering full functionality?	Yes		
4 Is the ELD easy to use so that drivers will use it, while still providing the robust data collection and reporting you need?	Yes		
5 Is the ELD compatible with both iOS and Android smartphones so you don't need to buy and install a single-purpose on-board computer?	Yes		
6 Is the ELD an event-based solution rather than time-based so that your data is accurate, timely and without gaps?	Yes		
7 Will the solution evolve with changing regulations since the provider has the tenure in the industry and the resources to respond to changes?	Yes		
8 Is the ELD solution reliable, robust and cloud-based?	Yes		
9 Does the ELD provide the opportunity to tag inspections as pre- and post-trip?	Yes		
10 Will you get benefits beyond simple compliance from the ELD, such as calculating all the driver's hours and display of time remaining?	Yes		
11 Can the solution provide data for accident reconstruction?	Yes		
12 Will you be able to customize the solution in order to meet your unique needs?	Yes		
13 How long has the vendor been in business, and how many customers/subscribers do they have?	15 years in the industry, with more than 3.75 million vehicles protected
